I. How to Use This Folder Effectively

To get the maximum benefit from All-in-One, follow this step-by-step approach:

1. Build Your Foundation with SATashkent Books

Start with the main books(Mathbook and SAToplam). They follow the same structure and logic used by our top teachers during classes.

Do not rush — master each topic before moving forward.

2. Practice Past Exams Regularly

Use both US and International past exams included in this folder. Solving real exam papers helps you understand timing, question logic, repeated topic patterns, and overall SAT exam structure. Aim to solve at least one full exam every few days.

3. Challenge Yourself with Hardest Sets

The Hardest Sets collected by the R&D Department are designed to test your upper limits. They reflect the most difficult levels of SAT questions and are ideal for students aiming for 750+ and teachers who want to improve their mastery. These sets will strengthen your endurance, accuracy, and deep understanding.

4. Study Predictions Before Each Exam

Before each exam season, check the Prediction and Analysis files. These documents highlight the most common question types, frequently tested topics, repeated structures, and expected trends. They help you focus on what matters most instead of studying blindly.

5. Visit the Folder Frequently

This All-in-One library is **constantly updated**.
Expect new books, newly collected past exams, improved versions of existing materials, additional hard sets, updated prediction files, and other resources the R&D Team releases for public use. The more you return to this folder, the more value you will gain

I. Reporting Content Feedback

If you notice anything in our materials that may require clarification, adjustment, or improvement — such as unclear explanations, formatting inconsistencies, missing pages, or non-working links — please let us know so we can update the content promptly.

Please share your feedback directly with our R&D team via Telegram: **@randsupport**

Your input helps us maintain accuracy, enhance the quality of our resources, and ensure the best learning experience for every student.

II. All-in-One: Everything You Need for SAT

All-in-One is created to give every dedicated student the complete support, structure, and clarity they need to pursue their SAT goals. With **consistency** and **discipline**, you can use these materials to fully prepare for the exam and move confidently toward your dream score — **no matter where you are**.

And for students who prefer in-person guidance, teacher interaction, and a classroom environment, you are always more than welcome to join our **CollegePrep Community.**

Whether you choose to self-study with All-in-One or join our offline programs, your path to SAT success is **clear**.
And always remember: You will never walk alone!
